THE GREEN HEART OF  
CROATIA

Azure and green rivers, authentic cities, charming villages, rolling hills, and gastronomical masterpieces in obscure areas of Croatia. Are you looking for activity and adventure during your holiday, but aren't keen on large groups? Then choose this 8-day active trip to Croatia – with a twist.

What is the twist, you wonder? This trip isn't a standard package trip that you can find all over the internet. We choose not to work with larger companies that provide the same activities for multiple travel organizations. Instead, we choose to exclusively work with local, small-scale entrepreneurs that manage their companies with love, passion, and enthusiasm. According to previous travelers, this is a huge asset to our trips; the smaller groups and personal touch contribute to a better experience. The activities and day trips of this active holiday in Croatia can optionally be combined with a few relaxing days by the sea.

Join us for a healthy dose of sports and adventure. The flavors and aromas of beautiful wines and precious and pure olive oils. Beautiful rivers, impressive waterfalls, and charming villages.

FOR FAMILIES -  
PELJESAC PENINSULA

The jewel of the Adriatic Sea is just that; a jewel that shines at every bend of the Dalmatian Coast and on every beach and island that your family will explore. Croatia the country where turquoise water caresses medieval stone walls, and robust fortresses look out upon the sea and bright blue sky.

On this family vacation you'll explore hidden cave beaches, brilliant lakes bordered by mountains and towns where Gothic chapels coexist with the ruins of 4th-century Roman palaces.

A family vacation to Croatia is an up-and-coming choice for many families! It has unique natural beauty, family friendly sites and activities and delicious food. But most importantly it has amazing opportunities for outdoor adventures. When traveling it's important to get outside and see what the natural world has to offer. Here is 1 thing that your family should do outside when you go to explore Croatia together.

When there is a coastline as beautiful as the Dalmatian and water as pure and peaceful as the Adriatic Sea, we can't help but recommend a kayaking adventure. Kayaks are great for families. They're safe, low maintenance and allow people to explore at their own pace. Its fun and rewarding to find the hidden beaches. It's also a great spot to go snorkeling!
